

## Capital Region PRISM Survey Report

- To be submitted to Capital Region PRISM following the completion of partner, individual, or PRISM-led survey for review.
- Make sure you use Adobe Reader or Adobe Pro. Do not use your web browser.
- This form can be found online as "Field Survey Report Template" at <http://www.capitalmohawkprism.org/reports.html>
- Please consult the Capital Region PRISM if there are any questions at [\(518\)-885-8995](tel:5188858995)

### **Purpose:**

The Invasive Species Survey Report will provide an overview and help guide invasive species treatments, baseline site composition, post-monitoring, and restoration at a specific site over time. A single survey report should not be written for an entire site, but a specific project. A site could have multiple reports. If there are multiple reports within a site, consult with the Capital Region PRISM about potentially preparing a more robust survey report.

***iMapInvasives: We highly recommend using iMapInvasives to enter all points and polygons into***

### **Section 1: Survey Summary**

This section provides an overview of the site, contact information, etc. Once complete, save your PDF and submit the form via email to a member of the Capital Region PRISM team, found at <http://www.capitalmohawkprism.org/staff.html>. Attach your saved report and any extra documents used for the survey.

To determine site value, we recommend using the iMapInvasives Prioritization Model which can be found on the PRISM website at <http://www.capitalmohawkprism.org/ny-invasive-species-prioritization-map.html>. This prioritization model will allow you to assess your sites value based on 3 factors. We recommend looking at the comprehensive score or the ecological score to determine if your site is a high priority site as this will help us determine priority of future management. If it is not a high priority site, we still encourage you to complete invasive species surveying.

### **Section 2: Survey Result Summary**

This section will contain the tables and maps generated from your survey efforts. They will assist the Capital Region PRISM in our efforts to identify emerging species to be able to more effectively manage infestations and the spread of populations. Please fill out the provided table and insert screen shots of iMapInvasives maps.

### **Section 3: Summary of Recommendations**

This section contains treatment calendars and post-season summaries. Most sites need to be revisited annually to document successes/failures, identify any changes needed, and update future treatment calendars.

# Invasive Species Survey Report

## **Section 1: Survey Summary**

Start Time:  End Time:

Date:  Property Owner Contact Info:

Site Name:  County:

Latitude:  Longitude:  iMapInvasives User ID:

Survey Leader:  Team Members:

Phone (O):  Phone (C):  Email:

Site Description: *Provide existing conditions of the site, current land use, landscape elements, etc.*

Survey Techniques: *Provide a clear and concise description of the work to be conducted, target species, and any survey methods used.*

Overall Site Size:

Previously Treated Infestations?

Did you identify this site through the iMapInvasives Prioritization Model?

If yes- Did it score high in either ecological or comprehensive value?

## **Insert Site Maps**

**Map:** *Develop a map of the survey area that has any iMapInvasives points and searched polygons included to clearly define infestation extent. Multiple maps may be added for multiple species or locations.*

### **Section 3: Summary of Recommendations**

*This page provides recommendations of any treatment methods, monitoring methods, and restoration efforts based on the survey.*

**Treatment:** *Describe briefly any recommendations for future treatment methods, why they are recommended, and any alternatives to consider. Please use abundance and site-specific factors in your treatment recommendation. Optional: Attach or reference BMP guidance document*

**Post- Survey Monitoring:** *Briefly explain the monitoring procedure, when it will occur, and who will complete it. Consider the phenology of species when suggesting time-lines. If a separate management or monitoring plan was developed or to be completed, attach or describe here.*

Will post-treatment management be handled by another person/entity?

If yes, please provide the contact information:

Will an Invasive Species Management Plan be created?

**Additional Comments:**
