

Capital Region PRISM Survey Report

- To be submitted to Capital Region PRISM following the completion of partner, individual, or PRISM-led survey for review.
- Make sure you use Adobe Reader or Adobe Pro. Do not use your web browser.
- This form can be found online as "Field Survey Report Template" at <http://www.capitalmohawkprism.org/reports.html>
- Please consult the Capital Region PRISM if there are any questions at [\(518\)-885-8995](tel:518-885-8995)

Purpose:

The Invasive Species Survey Report will provide an overview and help guide invasive species treatments, baseline site composition, post-monitoring, and restoration at a specific site over time. A single survey report should not be written for an entire site, but a specific project. A site could have multiple reports. If there are multiple reports within a site, consult with the Capital Region PRISM about potentially preparing a more robust survey report.

iMapInvasives: We highly recommend using iMapInvasives to enter all points and polygons into

Summary of Project:

The New York State Department of Environmental Conservation provides financial support to the Capital Mohawk PRISM via the Environmental Protection Fund.

Invasive Species Survey Report

Section 1: Survey Summary

Start Time: End Time:

Date: Property Owner Contact Info:

Site Name: County:

Latitude: Longitude: iMapInvasives User ID:

Survey Leader: Team Members:

Phone (O): Phone (C): Email:

Site Description: *Provide existing conditions of the site, current land use, landscape elements, etc.*

Survey Techniques: *Provide a clear and concise description of the work to be conducted, target species, and any survey methods used.*

Overall Site Size:

Previously Treated Infestations?

Did you identify this site through the iMapInvasives Prioritization Model?

If yes- Did it score high in either ecological or comprehensive value?

Insert Site Maps

Map: *Develop a map of the survey area that has any iMapInvasives points and searched polygons included to clearly define infestation extent. Multiple maps may be added for multiple species or locations.*

Section 3: Summary of Recommendations

This page provides recommendations of any treatment methods, monitoring methods, and restoration efforts based on the survey.

Treatment: *Describe briefly any recommendations for future treatment methods, why they are recommended, and any alternatives to consider. Please use abundance and site-specific factors in your treatment recommendation. Optional: Attach or reference BMP guidance document*

Post- Survey Monitoring: *Briefly explain the monitoring procedure, when it will occur, and who will complete it. Consider the phenology of species when suggesting time-lines. If a separate management or monitoring plan was developed or to be completed, attach or describe here.*

Will post-treatment management be handled by another person/entity?

If yes, please provide the contact information:

Will an Invasive Species Management Plan be created?
